Practice tip

1. ****Walk the A part first, doublings off.**** Play just the principal notes at q=60. Get the contour into your hands. Then layer doublings back in one bar at a time.
2. ****The B-part climb.**** The leap from F# to high A in bar 11 (`{ge}e2 {gf}f2 {gag}a4``) is the test. Build it from a long-tone exercise on F# -> A, then add the doubling.
3. ****Held cadence — eight beats.**** The final low A is one continuous tone for two bars worth of pulse. Don't lift the bag, don't let the tone wobble, don't anticipate the end. Hold steady for the whole eight.
